**Message:** Hello,

Now we are starting our business in Miami. For this we need to update our homepage. Currently we use a WordPress theme from envato, here we need something new and more exciting. Also, our homepage is not optimally geared to mobile phones. Gladly it can be a finished template again. Please have a look at our homepage. At the top right (globe) you can change the language. That's not really a great solution either.

The second point is our Instagram account. Here, contributions and stories would have to be created regularly. We currently have no one to take care of this.

Are there different packages we can book or how can you make us an offer?

I look forward to your feedback.

Best regards

Thomas
