

THE BCOM HEALTH 340B PROGRAM - AT A GLANCE OVERVIEW

The 340B program is an essential source of support which allows BCOM to stretch scarce federal resources and reinvest in patient care. This program permits our health center to purchase outpatient drugs at significantly reduced costs. BCOM is able to pass these savings on to eligible patients through reduced drug prices, and use any additional savings in support of our mission to improve the health and quality of life of the people and communities we serve. Contract pharmacies help us serve a vital part in our ability to offer expanded access and options for our patients. Without contract pharmacies, we would not be able to offer some of our programs.

HOW 340B DRUG PROGRAM WORKS

Once a covered entity is enrolled in the 340B program, it can purchase drugs from pharmaceutical companies at discounted prices. A contract is made between the covered entity and a third party, often a retail pharmacy.

Drugs from the covered entity are delivered by the pharmaceutical company to the contracted pharmacy.

The 340B drug is delivered to the covered entity by the contracted pharmacy.

SLIDING FEES

Covered BCOM patients are assigned to a group based on their income. There are five groups classified into A, B, C, D, and E.

WHAT IS 340B DRUG PROGRAM?

The 340B Drug Program is designed to help stretch scarce federal resources as far as possible, reaching more patients and providing more comprehensive care. Covered entities that participate in the program are able to purchase drugs at a lower cost, which allows them to provide more affordable care to their patients.

ARE YOU ELIGIBLE?

To be eligible for the 340B Drug Program, you must be:

- A BCOM patient receiving medical, behavioral health, or dental services
- Enlisted on the Sliding Fee Discount Program

FREQUENTLY ASKED QUESTIONS (FAQS)

Where can I get prescriptions?

Prescriptions for 340B drugs can be filled at Walgreens pharmacy. Please refer to the pharmacies listed above.

What kinds of drugs are covered by this program?

Some types of drugs covered by the 340B Drug Program include HIV medications, heart medications, and diabetes products.

Are all types of drugs covered by this program?

Not all types of drugs are necessarily covered. However, the program has been successful in providing discounts on medications for people who would not have access to them.

Is there a participation fee for this program?

There is no cost to participate in the program, and organizations can choose to use any or all of the discounts they receive.

I want to know more. Where can I inquire?

BCOM is always all ears for your concerns. If you wish to know more about this program, contact us or visit our website.
